APPROVAL OF SALE GIVEN!!!

On Thursday, September 9, 1993, The Alabama State Board of Education gave approval for the college to sale the 39+ acres of the 15th Street Campus. Aronov Realty of Montgomery submitted a bid of \$4,791,600 which was unanimously accepted and approved by The Board.

The approval of the bid however does not make the sale official. There are a number of important details to be finalized including the proposed date to vacate the campus. Early discussions have indicated that the college will have at least two years to vacate the property, depending upon the progress of the new campus.

Aronov Realty is a highly respected international real

estate firm located in Montgomery. Major projects of Aronov include The University Mall which is adjacent to the 15th Street Campus.

Interest continues to grow in the Skyland Blvd. property as well. With the opening of the new Lowe's Super Store, Sam's and Wal-Mart there has been a number of contacts regarding the property. The Skyland Blvd site has approximately eleven acres with the main building comprising 119,000 sq. feet.

As more information becomes available, you will be notified.

KEITH DAVIS - A STAR IS BORN

Our very own Keith Davis may be on his way to stardom! Keith was selected from a large number of nominated individuals from the state to be the "star" of a commercial Blue Cross Insurance. The commercial is excellent and shows Keith participating in his favorite hobby - fishing - while he talks about the wonderful benefits of Blue Cross. The advertisement will run for several months this fall, and can be seen with programming sponsored by Blue Cross like "The Gene Stallings Show."

It is rumored that this is only the beginning for Keith, as he has been seen frequenting local establishments with stars like Madonna and Sharon Stone. Way to go Keith! Don't forget all of your friends when you make it to Hollywood.

MASTER PLAN UPDATE

The architectural team from Volkert and Associates reports that the Programming Phase of their effort is over 95% complete and the Master Plan for the new campus is under way.

The Master Plan will determine how many buildings there will be and where the buildings, parking lots, and streets will be located. Generally, the Master Plan will be reviewed and revised two or three times before it becomes final. Water, Wetlands, and soil composition will effect the building and street placement.

Once the Master Plan is completed, individual building design will begin. The use of the building, technical programs or academic programs, may affect the style of the structure. The architects will take the information provided by you and integrate it into the building design. Initial

thoughts are for the campus are to have a traditional southern college design. While multi-story structures with large columns may not dominate the campus, their will be a definite influence of traditional southern architecture.

PARKING LOT SECURITY

Since the start of this semester there have been a few cars broken in to on the Skyland Campus. These have occurred during the day when the parking lot was full of cars and students. In one instance a person was going from car to car checking the doors to see if they were locked. They were seen taking books from an unlocked car.

Please be sure to lock your doors and close your windows. Keep all valuables in the trunk or out of sight and report any strange activity, in the parking lot, as soon as possible.

Alabama Power Company is currently installing several flood lights around the lot to help the students and staff feel more secure during evening and night classes.

YEAR END FREEZE

Once again it is time to freeze purchases for the 1993 year. What this means is that after September 17, 1993, all requisitions will be held until October 1st. This will give the Business Office time to close the year and try to clear all outstanding accounts.

Try to stretch your current supplies and materials for the next couple of weeks. As soon as the new year starts, October 1st, your requests will be processed as usual.

Memo

To: The College Community
 From: Ted D. Spring
 Date: August 25, 1993
 Subject: Successful Registration

CONGRATULATIONS ON A WONDERFUL REGISTRATION.

I heard many positive comments about the changes we have made in the registration process. Many students told me how much they appreciated the consideration given to them by our faculty and staff as they progressed through the system. As I watched all of you working carefully and thoughtfully with student problems to insure their registration, I felt proud to be a part of the college. Each of you make that special difference. Our students can believe in our fall semester's theme, "YOU CAN TURN TO US."

Initial enrollment figures indicate that we will again surpass previous enrollments. Shelton continues to GROW toward our goal of 10,000 students for our new campus.

Thanks so very much for your hard work. Best wishes for a successful academic year.

ENROLLMENT FIGURES

Current figure show that 5,302 students have registered for classes during the Fall Semester. This is not the final total, there will be another couple of hundred register for classes before the end of the semester. These students have generated a total of 51,687 credit hours. There are 2,517 full-time and 2,785 part-time students.

FLEA MARKET

Shelton State will have it's first annual Flea Market Saturday, September 18th on the Fredd Campus. The market will be on the front lawn or in the Cafetorium, depending on the weather. The Flea Market will start at 9:00 and end at 12:00. Call 758-3361 for more information or to reserve a table.

Invite your friends and register for prizes!
